Good Morning Early Readers!

- Our **chart of the day** is bullish on TATA STEEL, JINDAL STEEL & POWER, and VEDANTA with an interweek perspective.
- **SHOW ME THE MONEY:** (8.38 AM) Momentum Call: Buy VEDANTA JUNE Futures for 0-3 days at CMP 278.25 for an objective of 305. Stop 264. Alert: Momentum Play.
- Our **call of the day** suggests that the new-normal story of scaling fresh all-time high is likely to continue for the benchmark indices. We suspect, all bullish eyes will aim at Nifty's 16000 mark.

The positive catalyst: Wall Street remained buoyed in Friday's trade despite red-hot inflation figures. The market's reaction to inflation was quite positive as S&P 500 ended at record high as investors brushed-off inflation rise.

- Technically speaking, all bullish eyes on Nifty's psychological 16000 mark. Nifty's make-or-break support for the day are placed at 15449 mark. Below 15449 mark, downside risk seen at 15151 mark. The price action for Nifty in the near term is suggesting that we are likely to see a 15,501- 16200 range in near term with buy on dips as the preferred strategy.
- FIIs have emerged as net buyers in the month of June so far at Rs. 4788.03 crores. FII's positive interest is one of the key reason for the 7.6% rally in benchmark indices and double-digit gains in broader markets in the last four weeks.
- The options data for May Series suggests Nifty is likely to be in a higher trading range of 15500-16200 as maximum Call OI is at 16000 followed by 15800 strike price. Maximum Put open interest stands at 15000 levels followed by 15700 levels. Call writing was seen at 16200 and then at 16000 strike price, while there was meaningful Put writing at 15000 and then at 15800 strike prices.
- Crude oil prices are trading above \$70 a barrel for the first time in two and a half years.
- **Stock banned in F&O segment:** BHEL, CANBK, IBULHSGFIN, NATIONALUM, SUNTV.
- **Q4 earnings to trickle in today:** IOB, KAJARIA CERAMICS, IDFC LTD, COALINDIA.
