

# Our **call of the day** suggests a choppy and volatile session as Nifty may aim for some gains but the gains are unlikely to be inspiring as was witnessed in last 4-trading sessions.

### # The 2-big trading themes:

- 1) All eyes will be on the Indian trade team which is in the US to finalise deals before the Jul 9 deadline.
- 2) Focus will be also on the US NFP to trickle in this Thursday, July 3rd

## Daily Research Reports

## # Good Morning & Welcome to Monday's trading session at Dalal Street, dated June 30th 2025.

# Our call of the day suggests, this Monday, bullish consolidation could be the preferred theme and the big positive theme for Nifty and its stocks still will be: Reduced uncertainty.

# Technically speaking, Nifty's 'Unstoppable Rally' is likely to continue with aggressive intermonth targets at its all-time-high at 26277.35 mark...

# Only a break below Nifty 25300 could catch the bulls off-guard.

# To begin with, Gift Nifty is treading water in early action indicating caution ahead.

### # Blame it also on overbought territory.

# The 2-negative catalysts:

- 1) Friday's released US May PCE Price Index report which were not constructive for near-term rate cuts by Federal Reserve.
- 2) President Donald Trump said he is ending trade talks with Canada.

# That brings us to our call of the day which suggests after a choppy and rollercoaster morning session, Nifty may aim for some gains but the gains are unlikely to be inspiring as was witnessed in last 4-trading sessions.

# Should the benchmark Nifty continue to push higher, and we could see upside capped as bullish consolidation could be the preferred theme.

# A bullish consolidation and buy the dips could be the preferred theme for benchmark Nifty on backdrop of the biggest positive catalyst: The S&P 500 hits a new all-time high.

**Bottom-line:** The benchmark Nifty too shall continue to march higher towards its all-time-high at 26277.35 mark with an interweek/intermonth perspective.

## Outlook for Monday: The running of bulls shall continue...

# The positive takeaway from Friday's trade was that Nifty registered its 4-straight 'big win' as bullish sentiment got more fuel from trade-tariff deal progress.

# As per latest, Indian trade team stays longer in US to finalise deal before Jul 9 deadline. US President Donald Trump last week said "a very big" deal with India was likely soon amid hardening stance of both the nations.

# Going forwards, only a break below Nifty 25300 could catch the bulls off-guard.

### # Amongst stock specific action:

- 1) Adani Enterprises advanced 2.23% after the company announced that its joint venture, AdaniConneX (ACX), has completed the acquisition of a 100% equity stake in Granthik Realtors (GRPL) from Windson Projects LLP.
- 2) Power Mech Projects rose 2.91% after the company secured Rs 159 crore solar power orders from Bihar State Power Generation Company (BSPGCL) under the PM-KUSUM C2 scheme for setting up grid-connected distributed solar plants in Bihar.

## GLOBAL STOCK MARKETS:

In Friday's trade, Wall Street was seen trading with strong positive bias after mixed inflation data and news that the U.S. and China are making progress with trade negotiations.

The positive catalyst: Growing expectations that the Fed may cut interest rates sooner than previously anticipated.

The WSJ reported that President Trump is considering announcing his nominee for the next Fed Chair early, potentially installing a "shadow" chair who could push for a more dovish policy stance.

## RECAP OF PREVIOUS DAY'S TRADING SESSION:

NIFTY (+89, 25638)

Sensex (+303, 84059)

Bank Nifty (+237, 57444)

Nifty rings 'huge win' on hopes of U.S.-China deal.

# The Good News: Bullish investors still eye more upside. Nifty looks poised to test its all-time highs at 26277.35 mark.

# Sceptics may argue that Nifty's gains in last 4-days are probably a little bit of more positive reaction.

Our call of the day however suggests, the sentimental and fundamental and technical landscape favours the bulls at the moment.

Here are key 6-positive catalysts:

- 1) Middle East geopolitical tensions off the front pages.
- 2) Depressed oil prices at \$65.50 a barrel.
- 3) RBI positive bulletin acting as a tailwind.
- 4) Extremely positive Wall Street cues with the S&P 500 and the Nasdaq index flirting with their all-time-highs.
- 5) The White House has downplayed the urgency of upcoming tariff deadlines, easing investor concerns over a prolonged trade war.

In fact, as of writing, the US Commerce Secretary Howard Lutnick says the U.S. is nearing agreements with 10 other trading partners.

6) President Trump is likely to announce candidates for next Fed Chairman, potentially installing a "shadow" chair who could push for a more dovish policy stance.

# Nifty bulls retain strong bullish bias for 4-th straight day on Iran-Israel truce.

# Long Story Short: Buy on dips theme shall prevail.
